

Team Expectations Agreement¹

When working in a team, problems occasionally arise. One source of problems is the differing expectations of team members. For example, one person may think that an email response should come within 2 hours, while another may think that 2 days is acceptable.

In this tutorial, your team will work on establishing team expectations. In the space below, write down the list of *agreed upon guidelines* that your team intends to follow. Include guidelines for the following:

- methods of communication (email, phone, messenger, text, . . .)
- communication response times (email, phone, messenger, text, . . .)
- meeting attendance (when to meet, whether all meetings are mandatory, . . .)
- running meetings (when, where, face-to-face vs. online, who takes minutes, . . .)
- meeting preparation (whether preparation is needed, what to prepare, . . .)
- version control (what to/not to commit, content of log messages, . . .)
- division of work (how to divide work, who will decide who does what, . . .)
- submitting assignments (when to submit, who will submit, who will review the submission, . . .)
- contingency planning (what if a team member drops out, what if a team member consistently misses meetings, what if a team member is academically dishonest, . . .) We suggest that in these cases, a team promptly seeks help from the instructor. It is important not to let such situations escalate.

The list above is just meant to get you started. If you had any team problems in the past, think about what went wrong and how expectations can be set to prevent those types of problems.

methods of communication: Discord

communication response times: under 3 hrs

meeting attendance: flexible

running meetings: online on Discord Chat

meeting preparation: flexible given everyone puts in their best effort

version control: confirm with everyone before merging, use pull request template, legible log messages

division of work: task-by-task basis, decide during meetings depending on speciality

submitting assignments: we decide during weekly meetings tasks for the rest of the week

contingency planning: be nice to everyone; divide missing members work in worst case scenario

(Continued on the other side.)
